

INVESTMENT REPORT

Strategy

The Fund's objective is to achieve optimal capital growth over the long term through the active management of a portfolio of large-capitalisation stocks based primarily in a member country of the European Union or the European Economic Area.

The investment strategy is based on a fundamental analysis: the stock selection process is based on the activity of companies, their governance, financial structure, and development prospects. The fund aims to identify companies with dominant positions, high reinvestment capacity, and low debt.

The recommended investment horizon is 5 years. The reference currency is the Euro.
